It is the heart of the community and a beacon of hope for its students. After being impacted by minor earthquakes and settling, engineers discovered major structural flaws in the walls and determined the building was unsafe for students, staff, and visitors. Rather than ending our mission in Haiti, we hope to replace the present two-story school building with two single-story, steel-framed classroom buildings. This campaign will also help us fund a much-needed new sanitation station (latrine and shower). By supporting our efforts, you're not just helping us reconstruct walls; you're restoring the promise of a better future for every student who walks through the school's doors. There is a Haitian proverb, "A bird builds its nest one twig at a time." Every contribution, no matter the size, will help us ensure that the children of Fontaine will continue to learn, grow and become the future leaders Haiti so desperately needs.

(If you have already made your Campaign Donation, we thank you for helping us Renew Hope In Haiti!)

These are very difficult days in Haiti and student morale is down. However, they are still coming to school every day, learning, growing, getting a daily hot meal and finding strength and support in one another.
